

VALET BICYCLE PARKING SERVICES

Valet Bicycle Parking encourages people to bicycle to public events, knowing that their bike will be safe. More attendees riding bikes = less traffic congestion! Keeping bikes in one contained area keeps your event grounds orderly. Our staff freely share their knowledge about safe cycling, upcoming events, safe routes, etc. with attendees. We've been providing this service for years and are trusted in the community.

HOW DOES IT WORK? Valet bike parking works just like valet car parking!

- Each rider is given a check tag. One half stays with the bike and the other half is kept by the rider.
- The bike is carefully parked in our secure corral. (The corral is staffed by at least two people at all times; no one but staff is allowed inside!)
- To retrieve a bike, the user hands in the check tag and the bike is returned.
